

SAISA SP-1 Fall 2006  
University of South Florida  
September 2, 2006

FINAL RESULTS

REGATTA HIGHLIGHTS:

The first SAISA South Points series race was attended by 7 varsity teams and 5 junior varsity teams, sailing FJs in sunny, 88 degree weather.

Winds were good, starting at 5 knots and building to 10 knots, but very shifty with large oscillations. With an extreme high tide, the current was quite strong for Tampa Bay, going out all day. The mostly west breeze resulted in smooth water conditions.

Eight races were run for each division, using WL, WLx2, and Gold Cups. Races averaged 10 to 15 minutes in length.

No protests, no breakdowns, and several capsizes.

Thank you to all the visiting schools for their participation, and to the entire USF team and Waterfront staff for assistance in running the event.

A division = 8 Races  
B division = 8 Races
